

NUERA®

A World of VoIP Products for Your Every Need

About Nuera

Nuera designs, manufactures and sells advanced Voice-over-IP and converged VoIP and data networking products and applications to service providers and enterprises, enabling them to build and operate all-IP voice networks for delivering unified communications, contact centers, and hosted business services, whether in the cloud or on premises.

Our innovative products, solutions and services are used by large multinational enterprises and leading tier one operators worldwide, with our underlying high-definition voice technology ensuring excellent audio quality and a superior end-user communication experience. Nuera is headquartered in the US, with an additional office in Singapore.

Products

Nuera's field-proven products enable service providers and enterprises to migrate quickly and seamlessly to advanced Voice-over-IP infrastructures. The product line includes:

Session border controllers

Voice applications

Media gateways

IP phones

Management & monitoring applications

Partners

Nuera markets its best-of-breed VoIP solutions via a global network of highly trained channel and solution partners. Through a combination of distribution channels, system integrators, consultants and value-added resellers, Nuera delivers prompt and efficient support to customers worldwide.

Support

Nuera is committed to providing superior support and services to its valued customers, to ensure that they get the very best results from their investment in our products and solutions.
